

MICHAEL GIFFORD

About

I graduated in 2006 from the University of Oklahoma and moved to Kona to work in graphic design. In 2012, I will be offering my design and communication services with a new venture my colleagues and I are launching: CMYK Industries.

I'm honored to serve on the board of the Hawai'i Island HIV/AIDS Foundation, where I'm excited to contribute my expertise to help make the agency more successful.

I love to keep apprised of technology. My MacBook Pro is the most useful tool I own, I operate my own web server in a data center, and I'm working on my own mobile app.

#Occupy

I believe it's time to start anew, beginning with a new constitution that enshrines human rights, incorporates FDR's New Bill of Rights, forms a unicameral legislature, mandates a ranked-voting system, and abolishes corporate personhood.

I want to build a world modeled on the vision of Gene Roddenberry, creator of Star Trek, in which humanity thrives and poverty is a relic of the past.

Imagine.
